SAFe® Lean Portfolio Management

Aligning strategy with execution

Create a culture of innovation, flexibility, and speed where all people in the portfolio can effectively execute as one, unified team.

In this course, you will gain the practical tools and techniques necessary to implement the Lean Portfolio Management functions of Strategy and Investment Funding, Agile Portfolio Operations, and Lean Governance.

You will have the opportunity to capture the current and future state of the portfolio with the Portfolio Canvas tool and identify important business initiatives for achieving the future state. You'll be able to establish portfolio flow with the Portfolio Kanban and prioritize initiatives for maximum economic benefit. The course also provides insights on how to establish Value Stream Budgets and Lean Budget Guardrails and measure the Lean portfolio performance.

"The Lean Portfolio Management workshop was incredibly useful for our implementation of SAFe at Travelport. The format and structure of the workshop enabled us to create our LPM implementation roadmap, and depart the workshop with next steps clearly articulated and actionable. I highly recommend this workshop for any organization implementing lean portfolio management practices at scale."

HILLA KNAPKE, Dir. SAFe Enterprise Transformation
